

# Analysis of 2000 Virginia Motor Vehicle Theft Statistics

Prepared by

For

Virginia State Police  
Help Eliminate Auto Theft (H.E.A.T.) Program  
Senior Special Agent Randy D. Beeson, Administrator

## HIGHLIGHTS

August and January were the leading months for auto theft in Virginia in 2000, with close to 20% of thefts occurring in these two months. The four-month period from July to October accounts for over 35% of the reported thefts for the 1988-2000 average, excluding 1999\*.

Motor Vehicle Theft in Virginia increased from 15,022 offenses in 1987 to 21,284 offenses in 1991, a 42% increase. Since HEAT began in 1992, Motor Vehicle Thefts have decreased 24% compared to the base year of 1991.

Young people continue to make up a large portion of the arrests for Motor Vehicle Theft, with a little over 50% of those arrested in 2000 in the 20 years old or younger age group.

The five-year average (1995-2000, excluding 1999) value of reported Motor Vehicle Thefts each year in Virginia is \$122,317,317. The five-year average (1996-2000) value per incident is \$6,742.

Three areas of the state account for about 84% of the reported Motor Vehicle Thefts in Virginia: Tidewater - 36%; Northern Virginia - 26%; and Richmond - 22%.

\*See next page for explanation of exclusion of 1999.

Prior to 1999, crimes in Virginia were reported using the Summary System, which counts only the highest crime in an incident. In 1999, two methods were in place: the Summary System; and the Incident Based System (IBR), a new method, which counts all offenses in an incident, to a maximum of ten.

In 2000, all information included in the *Crime in Virginia* report is in the IBR format. Because of the change to a new reporting format, it is impossible to compare some information to previous data. In some cases, 1999 data have been omitted from comparisons.

For more information and a further discussion of the two reporting systems, see the 1999 and 2000 editions of *Crime in Virginia*, which were compiled by the Uniform Crime Reporting Section of the Virginia Department of State Police.

The sources for all information in this analysis are the 1988 through 2000 editions of *Crime in Virginia*.

The Crime Index continues a nine-year downward trend. The number of reported crime index offenses in Virginia has dropped from 289,619 in 1991 to 214,735 in 2000. This downward trend can also be noted in the Motor Vehicle Theft category. With the exception of 1995, 1997, 1998, and 2000, the incidence of Motor Vehicle Theft has decreased by greater percentages than the Crime Index.

\*2000 data are for Forcible Sex Offenses.

In 2000, August and January were the leading months for Motor Vehicle Theft, with close to 20% (18.93%) of reported thefts in these two months. To place these figures in perspective, August and January represent about 17% of the year (62 days divided by 365 days equals 16.99%). July was the third highest month with 8.9% of auto thefts reported during the month.

The four-month period, July to October, accounts for over 35% of the reported thefts (36.86% for the 1988-2000 average [excluding 1999] and 35.27% for 2000). To place these figures in perspective, July through October represents less than 35% of the year (123 days divided by 365 days equals 33.7%).

*Note: 1999 data omitted in order to make comparisons more relevant.*

<b>Total</b>	<b>16,172</b>	<b>100.00%</b>

*Note: "Average" and "% of Total" figures are based on 1987 through 2000 data. The information is shown as two tables because of the limitation of the page size.*

About 60% of reported Motor Vehicle Thefts occur in Virginia cities (59.88% for the 1987-2000 average; 65.35% for 2000). Another 40% (39.40% for the 1987-2000 average; 33.92% for 2000) occur in counties. The remaining thefts occur in colleges and other locations such as airports.

*Note: 1999 thefts by location data were slightly different than total reported thefts (16,120 total vs. 16,223 total when counted by area).*

**LOCATION (BY VSP DIVISION) - VIRGINIA MOTOR VEHICLE THEFT**

Division	89-00 Thefts	% of Total	Cumulative
V	79,590	35.63%	35.63%
VII	57,934	25.94%	61.57%
I	49,405	22.12%	83.69%
VI	12,775	5.72%	89.41%
III	10,371	4.64%	94.05%
II	7,851	3.51%	97.56%
IV	5,445	2.44%	100.00%
<b>Total</b>	<b>223,371</b>		

On average (1989-2000), three areas of the state account for about 84% of the reported Motor Vehicle Thefts in Virginia: Tidewater - 36% (Virginia State Police Division V); Northern Virginia - 26% (VSP Division VII); and Richmond - 22% (VSP Division I).

**CHANGE BY DIVISION FROM '99 TO 2000 - VIRGINIA MOTOR VEHICLE THEFT**
